

June 2021 Police report as requested by letter dated 5/18/21 (see below).

1. When Officer Faro is certified, end of month reports detailing the following:
 - a. Amount of calls requiring a response using Faro.
 - b. Detail of why a canine was needed for each noted call.
 - c. Amount of calls for Faro usage from other departments.
 - d. Any additional information that may be determined to be relevant.
 - e. Funds received by grants or donations that are related to Faro.

Joe D. Police Chief 6/30/21

Ferro will be tracking certified in September, I believe, I'd have to double check with Sean. He will then move to training and certification in drug work, which will take a few months also. So it will still be some time before he's completely certified, however his training is going excellent.

Additional request for info on Supply line over (\$900 budgeted \$4155 spent to date)

Joe D. Police Chief 6/30/21

As far as the Supply line being over, that line is budgeted for 900 dollars I believe, which in a typical year may be enough, next year would be the real test. It is over because I've had to purchase quite a bit of stuff for the PD to get it where it needs to be, New desks being a big one. But there were lots of other things needed. The good news is I think we are about set as far as that goes now unless something unforeseen comes up. We still need to replace office supplies throughout the year, another big purchase was ammo, we had barely any...basically just what was in the guns, and we purchased better pistols.
